Dedicated and experienced Frontend Web Developer with a strong foundation in HTML, CSS, and JavaScript. Proficient in various web development frameworks and libraries, including React.js, Laravel, and WordPress. Seeking to leverage my skills and expertise to contribute to dynamic web development projects and deliver exceptional user experiences. Known for excellent communication skills and a track record of successful client interactions. Experienced in implementing Google reCAPTCHA for enhanced security, managing websites using cPanel, utilizing Microsoft Azure ticketing systems, and conducting comprehensive website testing.

## Professional Experience:

Frontend Web Developer  
CodeArt Studio, Čačak  
August 2021 – December 2023

Collaborated with cross-functional teams to design and develop responsive and visually appealing websites.

Implemented and maintained static HTML websites with clean and efficient code.

Worked on multiple projects using the Laravel framework, focusing on frontend development and user interface design.

Utilized React Native and Expo to create the frontend of a mobile app for iOS and Android platforms.

Proficiently developed WordPress websites, customizing themes and plugins to meet client requirements.

Implemented and customized various JavaScript libraries and frameworks, including jQuery, Tailwind CSS, Bootstrap, and MUI React.

Successfully translated design mockups into functional web applications, ensuring a seamless user experience.

Conducted regular website maintenance, updates, and optimizations to enhance performance and security.

Collaborated with back-end developers to integrate frontend components with server-side functionalities.

Familiar with Node.js and npm for building modern web applications.

Proficient in terminal commands for Laravel and npm, streamlining development processes.

Experienced in version control using Git and GitHub, including proficiency in terminal commands for Git.

Implemented Google reCAPTCHA to enhance website security and protect against spam and automated attacks.

Managed websites using cPanel, ensuring smooth hosting and server management.  
Utilized Microsoft Azure ticketing systems to handle client requests, track issues, and ensure efficient communication.

Conducted comprehensive website testing, including functionality, compatibility, and performance testing.

I exclusively used PHP, specifically utilizing PHPMailer, for email handling and testing, while leveraging my adept logical reasoning skills to troubleshoot and resolve issues, often seeking assistance from online resources such as Stack Overflow or AI chatbots when needed.

## Education:

Professional practice CodeArt Studio 2020 - 2021

Udemy Course (The fullstack web developer course) 2020

Prehrambeno-ugostiteljska High school 2015-2019

Elementary School Dr Dragiša Mišović 2007-2015
