Professional Summary

Accomplished and skilled Frontend Web Developer with a comprehensive background in HTML, CSS, and JavaScript. Proficient in modern frameworks such as React.js, React Native, Laravel, and WordPress, delivering high-quality web applications that prioritize user experience and functionality. Demonstrated expertise in managing complex projects from concept to deployment, with a proven ability to work effectively in collaborative team environments. Strong communicator with a record of successful client engagements and a commitment to continuous improvement and innovation.

Professional Experience

Frontend Web Developer
CodeArt Studio, Čačak
August 2021 – August 2024

- Led the design and development of responsive, high-performance websites, ensuring compatibility and seamless user experiences across multiple devices.
- Developed and maintained static HTML websites, utilizing efficient coding practices to optimize performance.
- Spearheaded frontend development using Laravel, creating intuitive user interfaces that align with project goals.
- Designed and deployed mobile applications with React Native and Expo, achieving a consistent and engaging experience on both iOS and Android platforms.
- Custom-tailored WordPress themes, consistently meeting client specifications and enhancing website functionality.
- Integrated advanced JavaScript and CSS libraries and frameworks, including jQuery, Tailwind CSS, Bootstrap, and Material UI React, to enhance the interactive elements of web applications.
- Collaborated closely with backend developers to seamlessly integrate frontend components with server-side logic.
- Administered website hosting and server management via cPanel, ensuring robust site security through the implementation of Google reCAPTCHA, SSL Certificates and Google Analytics.
- Utilized Git and GitHub for version control, facilitating efficient project management and team collaboration.
- Conducted extensive website testing, ensuring optimal functionality, compatibility, and performance across different browsers and devices.
